The Question is:
What do You Believe?

LEARNING BEYOND EDUCATION

We Believe that People should not be limited by their Education.

We Believe that Education and Learning are not the same.

Education may be formal.

Learning is Lifelong.

Education may come through Institutions.

Learning can come through Awareness, Experience, Observation, Participation and Application.

We Believe that People should not be limited by their background.

We Believe that People should not be limited by their circumstances.

We Believe that People should not be limited by their past mistakes.

We Believe that People should not be defined by degrees, certifications, titles or letters before or after their name.

Value is not determined by credentials alone.

Potential is not determined by credentials alone.

Contribution is not determined by credentials alone.

IMPACT is not determined by credentials alone.

We Believe every Person has the ability to Learn.

Every Person has the ability to Grow.

Every Person has the ability to Build.

Every Person has the ability to Create.

Every Person has the ability to Participate.

Every Person has the ability to Contribute.

LEARNING BEYOND EDUCATION

We Believe Learning creates Access.

Learning creates Awareness.

Learning creates Understanding.

Learning creates Confidence.

Learning creates Participation.

Learning creates Opportunity.

We Believe that when People are willing to Learn, willing to Connect, willing to Participate and willing to Activate, New Possibilities become Infinite.

The Question is:

**Are You Willing to Learn
Beyond Education & Institutions?**

OUR FOUNDATION

Through Connection, People discover possibilities.

Through Activation, People execute with intention.

Through Duplication, People create IMPACT
that compounds through Communities.

Connection creates possibility.

Activation creates momentum.

Duplication expands IMPACT.

Connect.

Activate.

Duplicate.

WHAT HAS ALREADY CHANGED

Money is Necessary.

Cash Flow is Necessary.

Banking is Necessary, but Banks are Not.

The World has Changed.

The Economy has Changed.

Technology has Changed.

The Community is Here.

The Resources are Here.

The Opportunity is Here.

The Technology is Here.

The POWER is Here.

The Choice is Here.

The Question is:

**What are You willing to do with
what has already Changed?**

CASH FLOW MATTERS

We Believe that Cash Flow Matters.

We Believe that Sustainable Cash Flow Matters.

Cash Flow is Necessary because Life requires Resources.

Families require Resources.

Households require Resources.

Organizations require Resources.

Communities require Resources.

Purpose requires Resources.

Vision requires Resources.

Mission requires Resources.

IMPACT requires Resources.

We do not separate Cash Flow from Purpose.

We do not separate Cash Flow from Vision.

We do not separate Cash Flow from Mission.

We do not separate Cash Flow from IMPACT.

Cash Flow supports the ability to live.

Cash Flow supports the ability to build.

Cash Flow supports the ability to give.

Cash Flow supports the ability to participate.

Cash Flow supports the ability to create.

Cash Flow supports the ability to EXPRESS.

Cash Flow creates Options.

Options create Flexibility.

Flexibility creates Opportunity.

CASH FLOW MATTERS

Opportunity creates Participation.

Participation creates IMPACT.

We are Cash Flow Visionaries because we understand that Sustainable Cash Flow is not optional for those who desire to support their families, fulfill Purpose, pursue Vision, advance Mission and create meaningful IMPACT.

The Question is:

**Are You willing to look at Cash Flow
in a completely different way?**

TECHNOLOGY, NETWORKS & ACCELERATION

14

The Technology is Here.

The Platforms are Here.

The Networks are Here.

The Communities are Here.

The Resources are Here.

The Opportunity is Here.

The Question is not whether change is coming.

The Question is:

**What are You willing to do with
what has already Changed?**

We Leverage Technology.

We Leverage Platforms.

We Leverage Private Networks.

We Leverage Networks.

We Leverage Communities.

Technology is not the Purpose.

Technology is not the Mission.

Technology is not the Movement.

Technology is a Tool.

Technology as a Tool

A Tool that allows us to Connect.

A Tool that allows us to Learn.

A Tool that allows us to Participate.

A Tool that allows us to Build.

A Tool that allows us to Duplicate.

A Tool that allows us to Accelerate.

TECHNOLOGY CREATES ACCELERATION

15

Technology helps make Connection easier.

Technology helps make Communication faster.

Technology helps make Learning more accessible.

Technology helps make Duplication more visible.

Technology helps make Community Building more scalable.

Technology helps make IMPACT more powerful.

Technology helps Communities connect to Communities.

Technology helps Networks connect to Networks.

Technology helps Organizations connect to Organizations.

Technology helps Movements connect to Movements.

The Movement is powered by People.

The Community is powered by Participation.

The Vision is powered by Purpose.

Technology creates Acceleration.

People create IMPACT.

The Question is not whether the Tools exist.

The Tools are Here.

The Question is:

**Are You willing to Leverage
what is already Here?**

NETWORK EFFECTS

We Believe in Network Effects.

We Believe Networks become stronger when People Connect.

We Believe Networks become more valuable when People Participate.

We Believe Networks expand when People Activate what already exists.

We Believe Networks multiply when People Duplicate with intention.

One Connection can create Awareness.

One Connection can create Knowledge.

One Connection can create Understanding.

One Connection can create Opportunity.

One Connection can create Participation.

One Connection can create Sustainable Cash Flow.

One Connection can create IMPACT.

As Connections increase, Awareness expands.

As Awareness expands, Participation grows.

As Participation grows, Networks strengthen.

As Networks strengthen, Opportunity multiplies.

As Opportunity multiplies, Sustainable Cash Flow expands.

As Sustainable Cash Flow expands, IMPACT increases.

This is the POWER of the Network Effect.

Not one Person moving alone.

NETWORK EFFECTS

17

Not one Community moving alone.

Not one Organization moving alone.

But People, Communities, Organizations, Platforms, Networks and Movements connecting together with shared Purpose, shared Participation and shared IMPACT.

We Believe the Network Effect is not only about numbers.

It is about Connection.

It is about Participation.

It is about Trust.

It is about Alignment.

It is about Duplication.

It is about multiplying Opportunity through People.

When one Cash Flow Visionary Connects, Awareness expands.

When one Cash Flow Visionary Activates, Momentum begins.

When one Cash Flow Visionary Duplicates, IMPACT multiplies.

The Network Effect becomes powerful when People stop standing alone and begin Participating together.

The Question is:
**Are You Willing to Become part of
the Network Effect?**

PARTICIPATION CREATES OPPORTUNITY

We Believe Participation Matters.

We Believe Participation creates Opportunity.

We Believe Participation is the bridge between what People see and what People do.

Because without Participation:

Awareness remains mental.

Learning remains informational.

Connection remains social.

Technology remains unused.

Networks remain dormant.

Cash Flow does not Circulate.

IMPACT does not Expand.

Opportunity does not Exist.

Participation moves People from watching to engaging.

Participation moves People from wondering to learning.

Participation moves People from waiting to activating.

Participation moves People from standing alone to becoming part of something greater.

We Believe People do not have to understand everything before they begin.

They must be willing to Become Aware.

They must be willing to Learn.

They must be willing to Connect.

PARTICIPATION CREATES OPPORTUNITY

19

They must be willing to Participate.

They must be willing to Activate.

They must be willing to Duplicate.

Participation is where Opportunity becomes Possible.

Participation is where Sustainable Cash Flow begins to Circulate.

Participation is where IMPACT begins to Expand.

Awareness, Learning, Connection, Technology, Networks, Cash Flow, Opportunity and IMPACT begin to move through Participation.

We are not here to stand on the sidelines.

We are not here to watch change happen around us.

We are not here to wait until every question is answered before taking the next step.

We are here to become Aware.

We are here to Learn.

We are here to Connect.

We are here to Participate.

We are here to Activate what already exists.

The Question is:

Are You willing to Participate?

LEVERAGE WHAT ALREADY EXISTS

We Believe Leverage Matters.

We do not build from limitation.

We build from what already exists.

We Leverage Awareness.

We Leverage Knowledge.

We Leverage Understanding.

We Leverage Connections.

We Leverage Community.

We Leverage Networks.

We Leverage Platforms.

We Leverage Private Networks.

We Leverage Technology.

We Leverage Participation.

We Leverage Influence.

We Leverage IMPACT.

Leverage is not exploitation.

Leverage is the wise use of what is already available, already connected, already present and already possible.

Through Leverage, one Connection can create multiple Possibilities.

Through Leverage, one Community can strengthen another Community.

Through Leverage, one Network can expand into other Networks.

LEVERAGE WHAT ALREADY EXISTS

Through Leverage, one Platform can create access to greater Opportunity.

Through Leverage, Technology can accelerate Connection, Participation, Duplication and IMPACT.

Through Leverage, Sustainable Cash Flow can Circulate beyond one Person, one household, one Organization or one Community.

Network Leveraging Cash Flow is not only a name.

It is a Principle.

The Network is the Asset.

Leverage is the Strategy.

Cash Flow is the Circulation.

IMPACT is the Result.

We do not have to start from nothing.

We do not have to build alone.

We do not have to wait for permission to recognize what is already available.

We Activate What Already Exists.

We Leverage What Already Exists.

We Duplicate What Already Works.

The Question is:

**Are You Willing to Leverage
What Already Exists?**

OWNERSHIP, PARTICIPATION & PROSUMER AWARENESS

We Believe People were created for more than consumption.

We Believe People were created to Participate.

We Believe People were created to Contribute.

We Believe People were created to Build.

We Believe People were created to Create.

We Believe People were created to EXPRESS.

We Believe People were created to Own.

Many People understand what it means to be a Consumer.

A Consumer receives.

A Consumer buys.

A Consumer uses.

A Consumer participates from the outside.

But many People are not aware of what it means to be a Prosumer.

A Prosumer is not only a Consumer.

A Prosumer also Participates.

A Prosumer also Contributes.

A Prosumer also Creates Value.

A Prosumer also participates in what is being built, circulated and expanded.

We are not rejecting Consumers.

We are expanding Awareness.

We are helping People understand that they can be Consumers and Prosumers.

OWNERSHIP, PARTICIPATION & PROSUMER AWARENESS

They can receive and Participate.

They can use and Contribute.

They can connect and Create Value.

They can participate in systems, Communities, Networks and Platforms that create Sustainable Cash Flow, expand Opportunity and multiply IMPACT.

We Believe Ownership begins with Awareness.

Ownership expands through Participation.

Ownership strengthens through Contribution.

Ownership grows through Responsibility.

Ownership matures through Stewardship.

We Believe Sustainable Cash Flow is strengthened when People are not only consuming from a system but also Participating within it.

We Believe the future belongs to those who are willing to become Aware, willing to Learn, willing to Connect, willing to Participate, willing to Activate and willing to Duplicate.

Ownership is not only about possession.

Ownership is about Participation.

Ownership is about Responsibility.

Ownership is about Stewardship.

Ownership is about Contribution.

Ownership is about building something that can create Value beyond the individual.

We are Consumers.

OWNERSHIP, PARTICIPATION & PROSUMER AWARENESS

We are Participants.

We are Contributors.

We are Builders.

We are Prosumers.

We are Cash Flow Visionaries.

24

The Question is:

**Are You Willing to Understand the
POWER of Being a Prosumer?**

THE COMPOUNDING CYCLE

We Believe this Movement is not linear.

It is Compounding.

Awareness leads to Knowledge.

Knowledge leads to Understanding.

Understanding leads to Participation.

Participation creates Activation.

Activation creates Movement.

Movement creates Circulation.

Circulation strengthens the Network.

The Network expands Opportunity.

Opportunity creates Sustainable Cash Flow.

Sustainable Cash Flow strengthens Participation.

Participation multiplies IMPACT.

IMPACT creates greater Awareness.

And the Cycle continues.

This is the Compounding Cycle.

Awareness does not stand alone.

Learning does not stand alone.

Connection does not stand alone.

Participation does not stand alone.

Technology does not stand alone.

Networks do not stand alone.

Cash Flow does not stand alone.

Community does not stand alone.

IMPACT does not stand alone.

Each one strengthens the other.

Each one supports the other.

Each one expands the other.

This is how Community Compounding becomes more than numbers.

This is how Network Effects become more than Connections.

This is how Technology becomes more than a Tool.

This is how Participation becomes more than Action.

This is how Cash Flow becomes more than income.

This is how IMPACT becomes more than intention.

The Cycle continues when People continue to Connect.

The Cycle continues when People continue to Learn.

The Cycle continues when People continue to Participate.

The Cycle continues when People continue to Activate.

The Cycle continues when People continue to Duplicate.

The Cycle continues when Cash Flow continues to Circulate.

We are not building isolated moments.

We are building Movement.

We are not creating one-time action.

THE COMPOUNDING CYCLE

We are creating Compounding Participation.

We are not looking for temporary results.

We are creating Sustainable Cash Flow, expanding Opportunity and multiplying IMPACT.

27

The Question is:

**Are You willing to become part of
the Compounding Cycle?**

GLOBAL IMPACT & BORDERLESS MOVEMENT

Connection is no longer limited by geography.

Opportunity is no longer limited by location.

Learning is no longer limited by institutions.

Participation is no longer limited by borders.

IMPACT is no longer limited by distance.

Technology has changed the way People Connect.

Technology has changed the way People Learn.

Technology has changed the way People Participate.

Technology has changed the way Communities expand.

Technology has changed the way Networks grow.

Technology has changed the way Cash Flow can Circulate.

One Connection can reach beyond one household.

One Community can reach beyond one neighborhood.

One Network can reach beyond one region.

One Movement can reach beyond one country.

The Vision is bigger than location.

The Mission is bigger than borders.

The Movement is bigger than what People can See, Believe and Comprehend.

We are Changing Lives.

We are Changing Families.

We are Changing Generations.

GLOBAL IMPACT & BORDERLESS MOVEMENT

We are Changing Communities.

We are Changing Countries.

We are Changing the WORLD.

This is not limited to one place.

This is not limited to one group.

This is not limited to one background.

This is not limited to one generation.

This is not limited to what People have been taught.

This is not limited to what People have seen before.

This is not limited to what People currently understand.

We Believe Sustainable Cash Flow, Awareness, Learning, Technology, Participation, Network Effects and Community Compounding can expand beyond traditional limitations when People are willing to Connect, Activate and Duplicate.

This is a Borderless Movement.

This is a Global Movement.

This is a Cash Flow Visionaries Movement.

No Family Borders.

No Community Borders.

No City Borders.

No State Borders.

No Country Borders.

No Generational Borders.

GLOBAL IMPACT & BORDERLESS MOVEMENT

30

No Traditional Limitations.

One Connection.

One Community.

One Network.

One Movement.

One Cash Flow Visionary At A Time.

We are Not waiting for this to happen.

This is already Happening.

The Question is:

**Are You Willing to Create Sustainable
Cash Flow without Borders?**

THE PAST & THE NOW

We Honor the Journey.

We Appreciate those who came before us.

We are Grateful for the Lessons.

But We do not live in the Past.

We do not build in the Past.

We do not create in the Past.

We live in the NOW.

We build in the NOW.

We create in the NOW.

We EXPRESS in the NOW.

We impact Lives in the NOW.

The Opportunity is NOW.

The Choice is NOW.

The Time is NOW.

The Question is:

Are You Living from Yesterday?

or

Are You Participating in the NOW?

PURPOSE, GIFTS, VISION & VALUE

We Believe that every Person carries Purpose.

We Believe that every Person carries Gifts.

We Believe that every Person carries Vision.

We Believe that every Person carries Value.

32

Not something to become.

Something to EXPRESS.

The Question is:

What are You EXPRESSING?

What are You Building?

Influence & IMPACT

Turn Influence Into **IMPACT**.

You already have the Influence.

Now Activate the Community.

INFLUENCE & IMPACT

You spent Years building Trust.

You spent Years building Influence.

You spent Years building an Audience.

You spent Years building Connections.

You spent Years building a Community.

Yet many are still searching for the next launch.

The next promotion.

The next irresistible offer.

The next opportunity.

The next fundraiser.

The next donation drive.

The next campaign.

The next event.

The Question is:

What are You helping Others Build?

LEGACY & IMPACT

Followers are not a Legacy.

Views are not a Legacy.

Likes are not a Legacy.

Community is a Legacy.

Learning is a Legacy.

IMPACT is a Legacy.

Influence is not the end.

Influence is the starting point.

Influence becomes IMPACT when it helps People Build.

Influence becomes IMPACT when it helps Communities Participate.

Influence becomes IMPACT when it helps Vision move into Action.

The Question is:

What are You helping Others Build?
